What is the most important item you learned that you will implement in your program?

Excellence in Pretreatment Training

Do not forget to complete your Evaluation Form.

Pacific Northwest Source Control Training Association

The Pacific Northwest Source Control Training Association (PNSCTA) was created to ensure continuity for future training programs for Source Control, Industrial Pretreatment and Pollution Prevention professionals in the Pacific Northwest. The PNSCTA will continue to provide the quality of training you have been accustomed to in the past. The PNSCTA offers training for all EPA Region 10 pretreatment programs.

Visit our web site www.pnscta.org for the 2008, 2009 and 2010 Workshop presentations along with future training programs.
